LEAKPROOF PIPES

BUILD YOUR
WORLD

WHO WE ARE

BirlaNu (formerly HIL Limited), part of the multibillion-dollar CKA Birla Group, is a home and building products and services company.

We serve homeowners, builders, and designers with sustainable, innovative solutions across pipes, construction chemicals, putty, roofs, walls, and floors, featuring brands like BirlaNu Leakproof Pipes, BirlaNu Construction Chemicals, BirlaNu TruColour Putty, Charminar, BirlaNu Aerocon, and Parador.

With 32 manufacturing plants in India, Germany, and Austria, innovation centers in India and Germany, and a market presence in 80+ countries, we adhere to the highest global quality standards, holding certifications such as GreenPro, IGBC, PEFC, Blue Angel, and EPD. Our products are integral to commercial, healthcare, hospitality, residential, and infrastructure projects worldwide.

Powered by over 5,000 employees and a strong partner ecosystem, BirlaNu is ranked 12th in India's Best Companies to Work For by Great Place to Work® and has been recognised with accolades such as Iconic Brand, Asia's Most Trusted Brand, and Super Brand awards.

BRAND STORY

Since 1946, we've been on a journey of continuous evolution and today, we are proud to announce a new chapter in our legacy: HIL is now BirlaNu.

BirlaNu is inspired by the people we serve and driven by a passion for continuous growth. Rooted in connection, creativity and sustainability, we empower homeowners, builders and designers to bring a vision to life, crafting innovative buildings and structures that stand the test of time.

As the world evolves, we remain committed to shaping spaces where life unfolds and inspiring beautiful, lasting design with our customers at the heart of everything we do.

BirlaNu isn't just a name. It is a reflection of our purpose and promise to be the partner you trust in building the future.

BIRLANU LEAKPROOF PIPES

At BirlaNu, we provide advanced water management solutions through two trusted brands: **BirlaNu Leakproof Pipes and Topline**. With a diverse range of over 20+ products, our offerings include CPVC, uPVC, SWR, Rainwater, Silent, Underground Drainage, Foamcore, Reclaimed, Pressure, Column, Casing, PPR, HDPE, MDPE, Gas, PVC-O Pipes, Electrofusion Fittings, FHTC Fittings, Water Tanks and Accessories, including Solvent Cements.

Our innovation, **TruFIT Technology** is at the heart of our offerings, engineered for precision, this cutting-edge innovation reduces the gap between pipes and fittings—**delivering perfect alignment for leakproof joints**. BirlaNu Leakproof Pipes is proud to be **India's first and only brand** to offer this innovative technology.

Brand Promise: Infinite peace of mind with leakproof water management solutions

Brand advantage:

Comprehensive Range

Leakproof Assurance

Innovative & Sustainable Solutions

Plumbing & Sanitation Solutions: Our solutions are a comprehensive range of high-quality products tailored to meet the diverse water management needs of residential and commercial spaces with the highest standards of quality and performance. Our robust solutions of pipes & fittings including CPVC and uPVC to SWR, water tanks, silent and foamcore, are engineered to deliver lasting performance backed by innovation and design.

Agricultural Solutions: Our solutions meet the evolving needs of the farming and irrigation sectors, offering durable and efficient products for water transportation and irrigation. Our solutions enhance crop yields and minimise water wastage for the long term, ensuring efficient resource utilisation. This segment includes Pressure and HDPE Pipes & Fittings for high-pressure applications, along with column pipes and casing pipes for smooth water flow in borewells, supporting sustainable farming practices.

Industrial & Infrastructure Solutions: Our solutions withstand high-pressure and high-temperature conditions, making them ideal for transporting water, chemicals and gases, for industries and large infrastructure projects across sectors. Our range includes HDPE and MDPE pipes & fittings, known for their exceptional strength and resistance to harsh chemicals. The spigot butt fusion and electrofusion fittings offer secure, leakproof connections, while PP Compression Fittings are ideal for functional household tap connections (FHTC), offering ease of installation and reliability. Our gas pipes are designed for safe and efficient gas transportation. Our range offers robust and reliable solutions for fluid and gas management.

CPVC PIPES & FITTINGS

For hot and cold potable water applications

Key Features

- TruFiT Technology for leakproof joints
- In-house CPVC compound (under patent) for unmatched performance
- Withstands a temperature up to 95°C
- Withstands up to 28.14 kgf/cm² at 27°C and 7.04 kgf/cm² at 82°C
- Uniquely designed brass fittings, made using robotics, offer high torque-bearing capability (½" inserts can withstand loads up to 150 N·m).
- Quality of brass used in fittings conforms to IS 319
- Transition fittings with V-groove knurling ensures better grip between plastic and brass
- EPDM 'O' Rings exceeds the thermo-cycling test requirement under ASTM D2846
- Extra socket length in higher diameters ensures better grip and secure jointing
- UV stabilized and resistant to scaling, pitting and algae formation
- Lead free and non-toxic

uPVC PIPES & FITTINGS
For cold potable water applications

Key Features

- TruFIT Technology for leakproof joints
- Made using Organic Based Stabilizer developed in our in-house R&D centre, the range is eco-friendly and heavy metal free
- Extra socket length in higher diameters ensures better grip and secure jointing
- Resistant to corrosion, abrasion and fire
- UV stabilized
- Low thermal conductivity
- No scaling, pitting and algae formation

SWR PIPES & FITTINGS

For drainage and wastewater management

Key Features

- TruFIT Technology for leakproof joints
- Collapsible core mould technology in pushfit fittings ensures perfect fitment
- Pipes and fittings with co-moulded seal (yellow ring) ensures low insertion force and proper fit
- Resistant to chlorine, chloramines, alkali, acids, alcohols, etc.
- Swept angle for smooth flow rate
- Optimal water seal maintained in traps (nahani, P, Q, S, multi-floor, etc.) to avoid foul smell
- Pre-chamfered pushfit fittings which eliminates damage to rubber seal during installation
- Smooth inner surface and high flow rate

RAINWATER PIPES & FITTINGS

For rainwater management

Key Features

- Precision design for efficient water flow
- UV stabilized
- Corrosion resistant
- Light weight and easy to install

SILENT PIPES & FITTINGS

For low noise drainage applications

Key Features

- TruFiT™ Technology for leakproof joints
- India's first silent piping system certified under the revised DIN EN 14366-1 standard by the Fraunhofer Institute of Building Physics, Germany.
- Noise reduction as per DIN EN 14366-1 is <13.8 dB and as per VDI is 10 dB at a steady 2 LPS flow rate
- Comes with an adjustable wall plate, guidance and socket clamps for flexible pipe-to-wall distance and acoustic insulation from vibrations
- Smooth inner surface, swept angle for smooth flow rate
- UV stabilized
- Resistant to chlorine, chloramines, alkali, acids, alcohols, etc.

UNDERGROUND DRAINAGE PIPES & FITTINGS

For underground drainage

Key Features

- TruFIT Technology for leakproof joints
- Sufficient durability to meet soil overload requirements
- Resistant to chlorine, chloramines, alkali, acids, alcohols, etc.
- Smooth inner surface and high flow rate
- Resistant to corrosion
- High stiffness classes (SN2, SN4 & SN8)
- Excellent ring stiffness
- High impact and soil load resistance

FOAMCORE PIPES

Strong and light weight underground drainage system

Key Features

- TruFIT Technology for leakproof joints
- Excellent load bearing capacity
- Superior fatigue resistance due to cross-linked rigid PVC foam
- High impact and soil resistance
- Light weight and easy to install
- Resistant to corrosion, chlorine, chloramines, alkali, acids, alcohols, etc.

WATER TANKS

Comprehensive range of water storage solutions

Key Features

- 100% LLDPE Material
- UV Resistant
- Food Grade Material
- Unique Design for Strength
- Anti-microbial (anti-viral, anti-algae, anti-bacterial, anti-fungus)
- Corrosion and Rust Free
- Ventilated Threaded Lid with Inner Dis

PRESSURE PIPES & FITTINGS

For agriculture & water supply system

Key Features:

- TruFiT Technology for leakproof joints
- Corrosion, chemical and abrasion resistance
- High strength & durable
- UV stablilized
- Lead Free & Non-Toxic
- Smooth inner surface & high flow-rate
- Light weight & easy to install

COLUMN PIPES

For submersible pumps

Key Features

- TruFIT Technology for leakproof joints
- SS double wire technology guarantees safety of pump
- Square threads for positive locking
- High elasticity gasket for vibration resistance
- High pull-out capacity
- High impact & tensile strength
- Resistant to corrosion, chemicals and scaling, pitting and algae formation
- Lead Free & non-toxic

CASING PIPES

For borewell applications

Key Features

- Specially designed threads anvd EPDM O rings to ensure proper fit
- Excellent strength & stiffness
- Non-conductive & light weight
- Corrosion free
- CNC-automated horizontal slotting for ready-to-use application

PIPES (As per IS 12818:2010)
