Technical Advantages

Rimless Flushing Technology

**WC with conventional
flushing rim**

**Narrow and open,
partially unglazed**

Closed and glazed

WC without flushing rim

**No flushig rim,
no ledge**

**Duravit Rimless with „ledge“
and open rim**

Easy to clean

**Excellent area flushing
of inner bowl**

Duravit Rimless® - Innovative and effective

Easy access to all parts and areas of the bowl – for a plus in hygiene and ease-of-cleaning

Water flows in the open rim area with a **ledge** on top which prevents from oversplashing - which is otherwise common with those kinds of technologies

Excellent **4.5 l flush** – effective and efficient

Especially **large water spot** in the siphon area

Available for nearly all Duravit series – an unlimited variety

Even more efficient with WonderGliss®

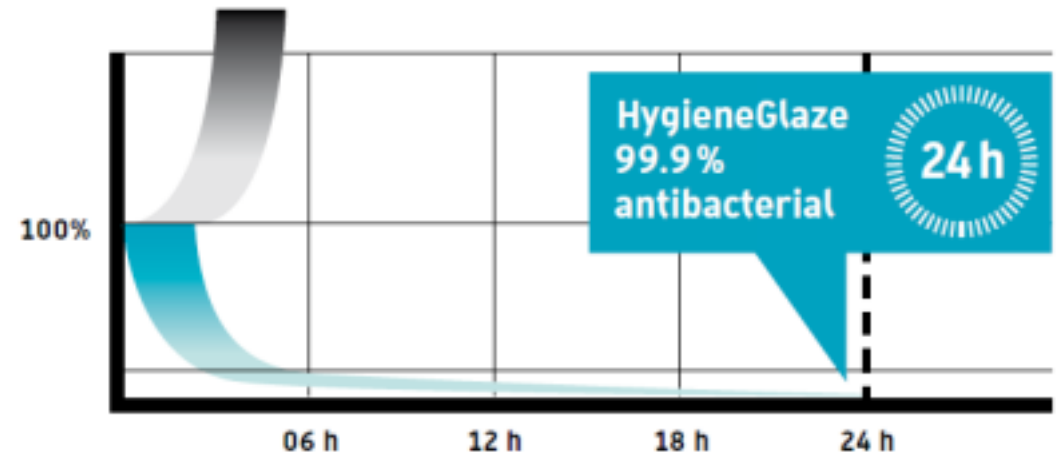

Anti-bacterial Glazing

HygieneGlaze 2.0

- Hygiene Glaze 2.0 inhibits the growth of bacteria
- Integrated into the glaze and fired into the ceramics permanently .
- Duravit's HygieneGlaze 2.0 sets an unprecedented hygiene standard.
- After just six hours, 90% of the bacteria (such as Escherichia coli) is killed.
- After 24 hours, 99.999% of the bacteria have been eliminated; an unprecedented level.
- Available in all Toilets

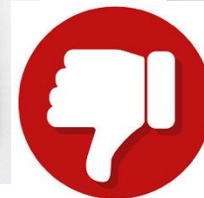

Durafix Installation

- Easy installation
- All metal parts
- Hassle free installation
- No visible rack bolts

**Installation with
Durafix
(Patented
Technology)**

Closed Side Pockets

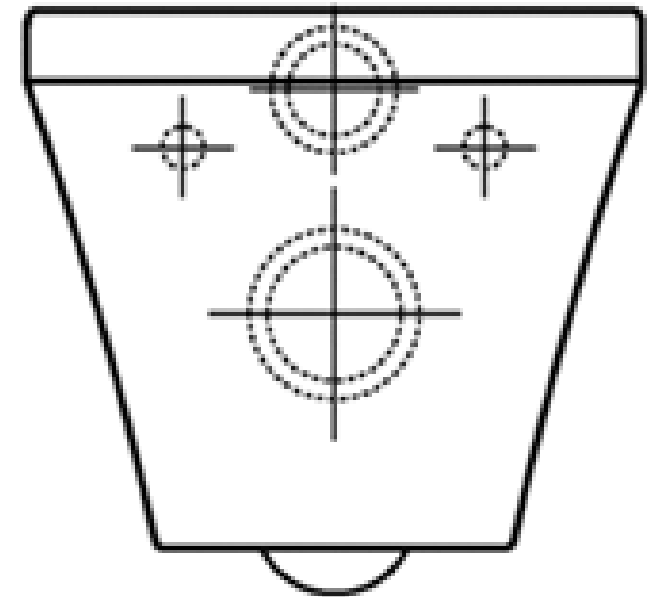

**CLOSED SIDES
INVISIBLE FIXING
SMOOTH CERAMIC
SURFACE
EVERYWHERE**

Uniform Installation Dimension for all Wall hung WC's

What to do, if rack bolt distance is not same for Wall hung toilets ?
Breaking of tiles and shifting piping system ?

Duraplast Seat Cover

- **Duroplast (Urea formaldehyde) seat covers for all toilets**
- **Very high strength**
- **Comfortable sitting**
- **Durable**
- **Anti-Static**
- **Resistant against UV-light,
stains, scratches, cigarette burns**
- **Dampers are developed and tested for 50,000 cycles**

Hygiene Flush

- Two offset openings for the powerful HygieneFlush.
- Entire inner surface of the toilet is optimally cleaned.
- The open, easily accessible edge area
- The bowl area is easy to keep clean, significantly reducing cleaning time and the use of cleaning agents.
- In combination with the HygieneGlaze antibacterial ceramic glaze, a previously unattained level of hygiene and cleanliness is created.

Hygiene Flush

Innovative well thought out water flow for ideal flushing

Perfect rinsing off the front bowl area without splashing

Environmentally friendly due to low water consumption

Optimum hygiene thanks to antibacterial HygieneGlaze ceramic glaze

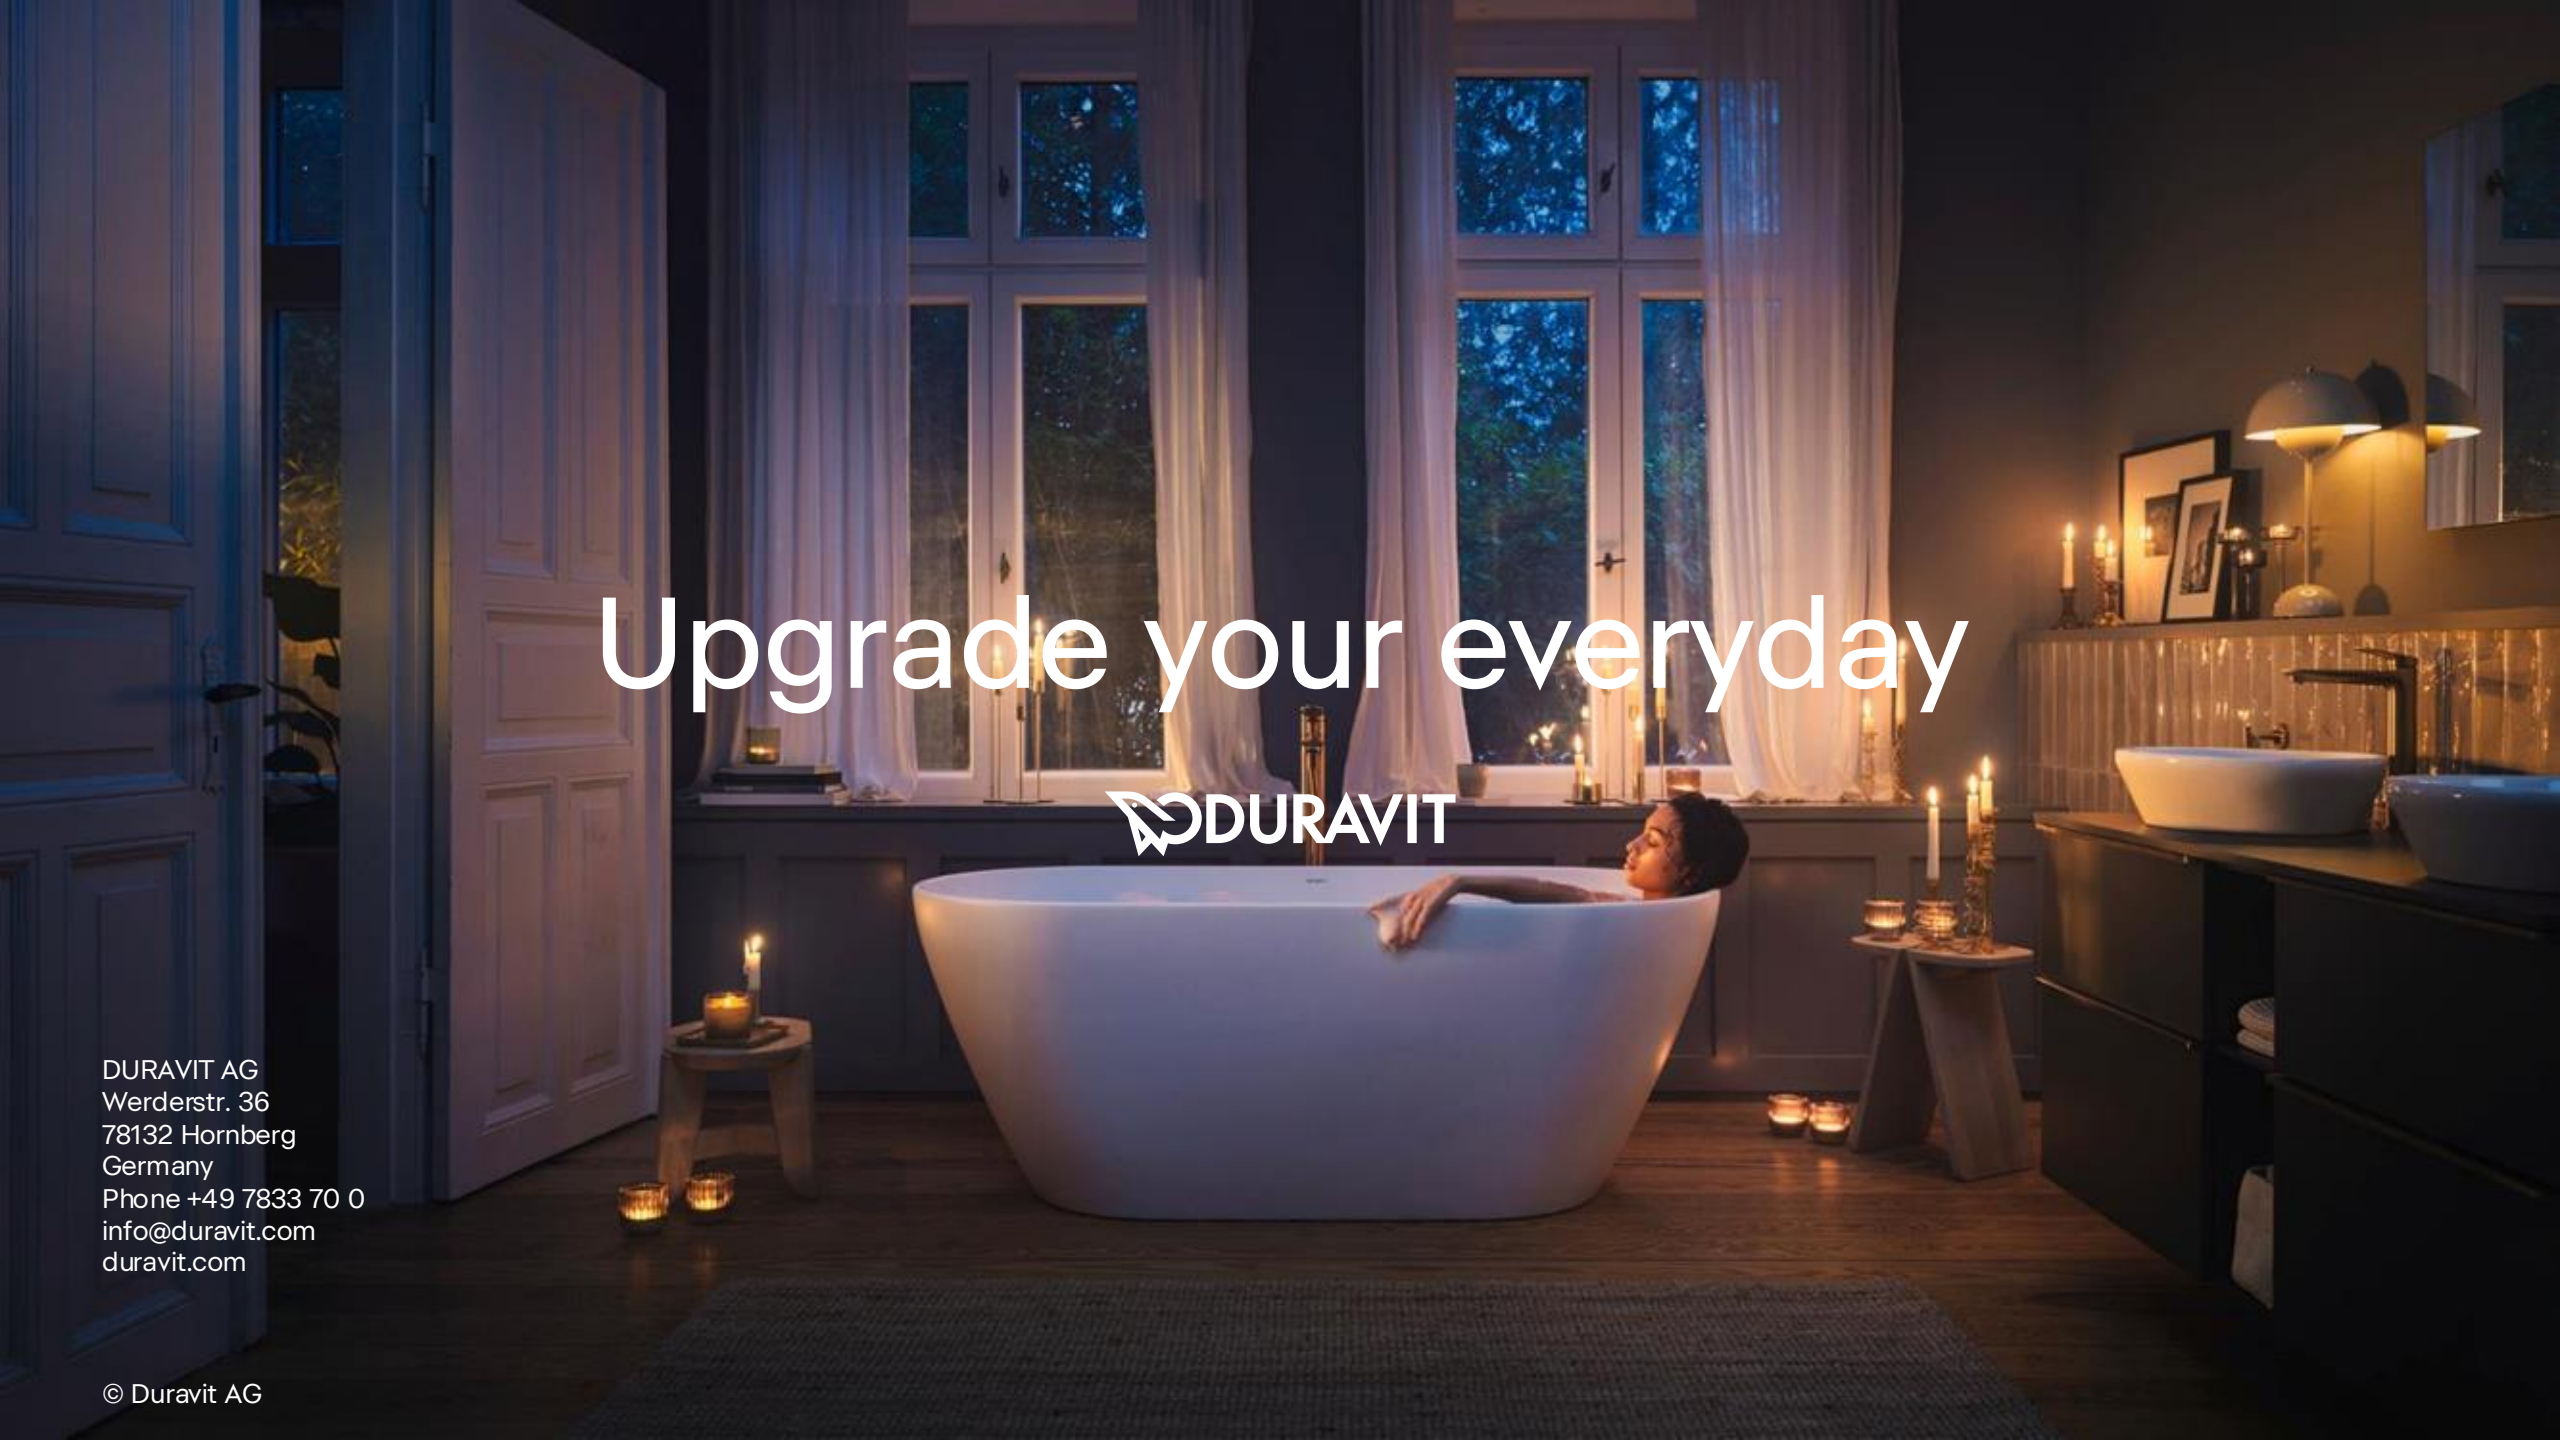

Best possible cleaning of the entire inner surface of the edge

Open Duravit rimless flush rim design

Hygiene Flush

**Powerful rotating flush via
two offset opening**
